Skills & Tools

Languages: English (Fluent), German (A2), Hindi(native), Marathi(Native)

Analytics: Data Analysis, Cost Analysis, KPI Reporting, Market Analysis

Quality: FMEA, Root Cause Analysis, Lean Manufacturing, Six Sigma

Tools: MS Excel, CATIA V5, ANSYS, Fusion 360

Professional Skills: Cross-functional Collaboration, Structured Working Style

Interests: Cycling, Hiking, Reading

Professional Experience

Karlsruhe Institute of Technology (KIT)

Student Research Assistant

Karlsruhe, Germany

Apr 2025–Present

- Created and analysed geospatial data in JOSM using aerial maps
- Collaborated with supervisors to deliver accurate mapping solutions

Karlsruhe Institute of Technology (KIT)

Student Research Assistant

Karlsruhe, Germany

Sept 2025–Dec 2025

- Contributed to the design of a runtime system for a Circular Factory, enabling data-driven coordination of logistics and production processes
- Developed software interfaces connecting operational data with Knowledge Graph models using Protégé
- Supported research on digital twins, interoperability, and intelligent material flow systems within Industry 4.0 environments

Intervalve (India) Ltd.

Technical Sales Support Engineer

Pune, India

Feb 2022–Aug 2023

- Prepared technical and commercial proposals for industrial valve packages(gate, globe, check, ball valves)
- Reviewed client specifications and PIDs to ensure technical compliance according to API 600, API 6D, ASME B16.34/16.10, ISO Standards, etc
- Reduced RFQ-to-submission cycle time by 30% through a structured proposal tracking system developed in MS Excel
- Contributed to proposals that resulted in order wins across national and international markets of 232\$ Million
- Coordinated with engineering, QA, and procurement to align technical scope, delivery schedules, and cost targets for bids

KNORR-BREMSE Technology Center India

Quality Engineer

Pune, India

Feb 2021–Oct 2021

- Performed defect analysis and root cause investigations
- Implemented corrective actions to improve production efficiency
- Coordinated with production teams and suppliers on quality issues

Automotive Research Association of India (ARAI)

Powertrain Engineering Intern

Pune, India

Jun 2019–Aug 2019

- Supported engine testing and data observation
- Assisted in chassis dynamometer testing
- Contributed to test documentation and emission analysis

Education

Karlsruhe Institute of Technology (KIT)

MSc Mechanical Engineering

Focus: Product Development & Management

Focus: Supply Chain and Logistics Management

Karlsruhe, Germany

2023–Present

R.M.D Engineering College

BE Mechanical Engineering

General Mechanical Engineering: Grade 2.6

Pune, India

2016–2020

Projects

Bachelor Thesis - Vortex-Induced Vibration Energy Harvesting System

Aug 2019 – Mar 2020

- Designed and developed a vibration-based energy harvesting system utilizing water-induced vibrations
- Managed the complete product development lifecycle including design, manufacturing, testing, verification, and validation
- Coordinated project planning, resource allocation, procurement activities, and stakeholder communication to ensure timely project execution

SUPRA SAEINDIA Competition

Jun 2018 – Jun 2019

- Led the steering subsystem for a Formula-style race vehicle
- Responsible for engineering design of steering system.
- Logistics planning, supplier coordination, procurement of raw materials to ensure on-time manufacturing and vehicle assembly

3-Wheeled Autonomous Robot

Jun 2019

- Led a team of four students in developing an autonomous mobile robot for navigation and obstacle handling
- Designed and implemented control logic using Arduino UNO and C++ for real-time decision making
- Developed and validated autonomous navigation functions including line tracking, obstacle avoidance, and path-following algorithms

Certifications

2024: Mechatronic Systems and Product - Institute for Product Development(KIT)

2023: Digital Technology Enterprise Program - Forage

2022: Fusion 360 Design and Manufacturing — Autodesk

2022: Robotic Process Automation - Symbiosis Skill and Professional University

2021: Project Management - Coursera

2021: Introduction to Mechanical Engineering Design and Manufacturing with Fusion 360 - Coursera

2020: Managing the Organisation - Coursera

Karlsruhe, June 11, 2026
